Disability Services

Who we are

The Disability Services Office provides accommodations to students with physical, psychological and learning disabilities in accordance with the Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973.

Student Responsibility

While Section 504 and the ADA require postsecondary institutions to provide accommodative services to students with disabilities, once the student has been admitted to the University, it is the student's responsibility to self-identify and provide documentation of the disability. The University will not provide accommodations until the student (1) comes by The Disability Services Office and requests services, **and** (2) provides recent documentation of his or her disability by a qualified professional.

Examples of what we can do for you

- Determine reasonable and appropriate accommodations according to the documented disability. Accommodation letters are provided to each instructor; it only includes the appropriate accommodations. We will never disclose your medical diagnosis.
- Assist students in procuring adaptive technology and equipment as required
- Assist with the registration process, paying particular attention to areas of academic strength and weakness, so as to not overload or overwhelm the student.

To get started, visit Malone 120 to pick up an application.
