## Trojan OneCard & Refunds

How are refunds sent back to the student? There are several ways for this to occur; however, having your refund applied to your Trojan OneCard makes the process very simple and convenient.

The Trojan OneCard is issued to new students when they register for classes in their first term at TROY.

Once the student receives his/her Trojan OneCard, the student must go to TrojanOneCard.com to activate their choice of refund delivery methods. The student should activate their choice within two business days.

A student may choose one of the following refund delivery methods:

1. Debit Card OneAccount (Easy Refund)
2. Direct deposit to a bank account of the student's choosing

The Debit Card OneAccount (Trojan OneCard activated as a debit card) is tied to a fully functioning FDIC insured checking account. There is no credit check to open this account. The student may use the debit card anywhere the MasterCard Debit Card is honored. To avoid paying debit fees; choose credit after you swipe your card, and sign.

## Nutrition Minor

Troy University offers a nutrition minor program through the Department of Kinesiology and Health Promotion. A minor in nutrition is an excellent complement to many academic majors including Exercise Science, Hospitality Sport & Tourism, Biology, Chemistry, Human Services, Social Work, Nursing, Psychology, and pre-health professions programs. Nutrition courses provide academic preparation for certification programs such as personal trainer or diabetic educator. Students may also take nutrition courses as electives. All courses are offered conveniently online and will not interfere with course schedules. The minor may be completed in one year. Troy University has partnerships with other universities to accept all courses in the nutrition minor for transfer to undergraduate and graduate programs in nutrition and dietetics.

Troy University, Phenix City  
Riverfront Campus, Suite 318

Hours of Operation:  
Monday - Thursday: 9am - 7pm EST  
Friday: 9am - 1pm EST

**The mission of the Center for Student Success assists students is to provide programs and services that enhance Troy University students' academic achievement, personal and social growth, career development, and persistence to graduation.**

**What we provide:** The Center for Student Success assists students with academic requirements, counseling, evaluating test scores, problem solving, and tutoring, to provide a central environment of support to help our students navigate their journey toward academic achievement. This journey will begin with testing and assessment, and will continue through accommodation, remediation, and follow-up services and programs. Periodic seminars and workshops will be conducted to lead students to success.

**Tutoring:** The Center for Student Success offers tutoring in basic skills development in English, Math, and various other subjects. Tutors will assist students with requirements for courses from freshman through graduate level. English tutors work individually with students to improve critical writing skills to become more effective writers and thinkers. Math tutors work individually with students to help them master required knowledge in math courses. Online on-demand tutoring services are also available for additional courses via Smarthinking at <http://trojan.troy.edu/globalcampus/sites/smarthinking.html> and through Blackboard.

**Testing/Computer Science:** The Center for Student Success computer lab is available for students who need to take the COMPASS placement test to determine the appropriate starting level in math and English, and for other required testing. The lab is also available to offer students the technological equipment needed to complete academic assignments, access the internet, and print. Computers will be configured to easily access job search materials.

**Career Services:** The Center for Student Success assists students with their career counseling needs. By creating career goals and developing a career plan, our students have a better chance of attaining a rewarding career. Assessing skills and interests, researching occupations and learning job hunting techniques will result in employment opportunities. The Center for Student Success also assists with resume development, maintains a database of available local jobs, hosts career fairs, and helps connect employers with our students and alumni.

## Getting Started

Online education gives you the opportunity to advance your learning without having to come to the Troy campus. The online courses are conducted entirely through the Internet, allowing you to receive assignments, submit coursework, and interact with your professor and other students via your computer. The courses are primarily asynchronous, which means you don't have to be at your computer at the same time as others. You will spend much of your time reading and responding by sending messages within the on-line classroom environment.

## Advising

Once you are admitted to a Troy University online degree program you receive by email your administrative counselor and faculty advisor name for a graduate program and your professional counselor name for an undergraduate program. If you are unsure of who your advising staff is please call toll-free at 800-414-5756 or email at [ask@troy.edu](mailto:ask@troy.edu). Please be sure to have your student id number and your home location.
